DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 17-25, 29, 30 and 35-38 is rejected under 35 U.S.C. 103(a) as being unpatentable over www.sonyclassical.com, www.sonymusic.com, www.sonymashville.com and www.thestore.sonymusic.com in view of obviousness.

The above websites shows all of the limitations of the claims except for specifying music instead of restaurant equipment and reciprocal direct links. www.sonyclassical.com, dated 5/8/1999, (first website) offers classical music, has a direct link to www.sonymusic.com, dated 5/7/1999 (second website) and has a direct link to www.thestore.sonymusic.com, dated 2/3/1999 (central site). www.sonymashville.com dated 4/28/1999 (third website) offers country music (nashville related) and has direct links to, www.sonymusic.com, and www.thestore.sonymusic.com.

The examiner takes Official Notice that restaurant equipment is one of an infinite number of product area, which are equivalents in order to suit your own needs.

Based on the discussion above, it would have been obvious to one of ordinary skill in the art, at the time the invention was made, to modify the websites to sell any

one of an infinite products, including restaurant equipment, in order to suit your own needs.

The examiner takes Official Notice that reciprocal direct links are old and well known for use in order to surf the Internet more efficiently.

Based on the discussion above, it would have been obvious to one of ordinary skill in the art, at the time the invention was made, to modify the websites to incorporate reciprocal direct links in order to surf the Internet more efficiently.
